

# Royal Consulting Services, Inc.

*Bringing Innovative Solutions to Engineering Challenges*

Licensed Professional Engineers • Certified General Contractors • Certified NRCS Technical Service Provider

## Environmental Engineering

- **Monitoring & Compliance**
- **Regulatory Permitting**
- **Saltwater Intrusion Management**
- **Pollutant Transport Modeling**
- **Chemical & Physical Treatment Systems**
- **Pump & Injection Control Systems**
- **Wetland Creation & Restoration**
- **Hydrologic Modeling**
- **Effluent Disposal, Reuse, & Storage Systems**
- **Integrated Surface Water & Groundwater Modeling**
- **Surface Water & Groundwater Remediation**

### *The Benefits of Working with RCS*

Experience in every stage of environmental projects including conceptualization, design, permitting, construction, monitoring, and reporting

• Experience in providing engineering services in environmentally sensitive areas around the world

• Specialized in complex, multi-discipline projects throughout a variety of industries

• Ability to apply science and technology to address issues of environmental sustainability while promoting profitable business practices

### Our Goal

By modeling environmental systems and applying scientific and engineering principles, prevent or solve environmental problems, ensuring the sustainability of water, land, and air resources.

Licensed Professional Engineers • Certified General Contractors • Certified NRCS Technical Service Provider

## Environmental Services

- Soil, Water, and Tissue Sampling
- Erosion and Sediment Control
- Data Collection and Record Keeping
- Environmental Mapping in GIS
- Indoor Air Quality (Mold) Inspection and Assessment
- Compliance Reporting
- Monitoring and Compliance Plans
- Vulnerability Assessments & Climate Resiliency
- Floodplain Mapping
- Health and Safety Plan Development
- Site and Field Reconnaissance

### *The Benefits of Working with RCS*

Extensive backgrounds in environmental services with experience in evaluating, planning, and implementing successful procedures

A clear understanding of current and future regulatory and environmental issues that impact project design and operation

Sound management methods, technical expertise, and regulatory awareness necessary to provide clients with superior services to evaluate hazards, advise on treatment and containment, and develop safe operational protocols

### Our Goal

To protect human health and natural resources by managing chemical, physical, and environmental concerns and developing systems to assist the industry's regulatory needs, while maximizing resource potential.
